

Beelink St User Manual

- ① Open the Beelink St on your ME device.
- ② Use your phone to scan the QR code on the ME device to download the Beelink St software. When prompted to allow Beelink St to access photos and media on your device, click "Allow."
- ③ Click on "Profile" to switch to the device binding page.
- ④ Click on "Bind Device."
- ⑤ Click to allow Beelink St to take pictures and record videos
- ⑥ Use your phone to scan the QR code on the computer to complete the binding. Once bound, you can upload your photos. To unbind the device, click the settings button in the upper right corner. (Ensure both devices are under the same LAN.)

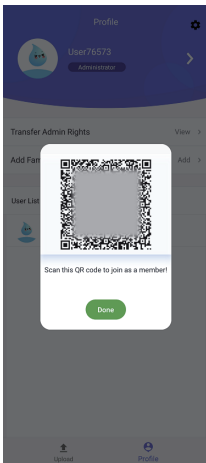

Adding Family Members (Administrator)

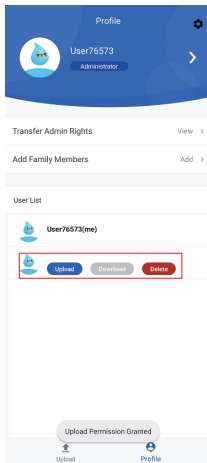

- ① Click on "Profile", then click on "Add Family Member."
- ② The family member you want to add should use their phone to scan the QR code to join. After joining, the administrator can view the added user in the user list and manage permissions for uploading, downloading, or deleting content.
